SUMMARY

I am a highly motivated software developer with almost two years of professional experience in web development, specializing in the MERN stack. I excel in both front-end and back-end development, creating user-friendly, optimized web applications.

WORK EXPERIENCE

Software Engineer

Nov 2021 - Present

Lensta Tech Pvt Ltd, Bangalore

- Developed and maintained web applications using the MERN stack at Lenta Technologies Pvt Ltd.
- Collaborated closely with cross-functional teams to gather project requirements, ensuring successful project delivery.
- Conducted code reviews and provided constructive feedback to enhance overall code quality.
- Proactively optimized the performance and scalability of web applications, resulting in improved user experiences.
- Demonstrated complete ownership of a product, overseeing the development of new features and resolution of bugs across frontend, backend, and database management.

Student

Sep 2020 - Sep 2021

Newton School, Bangalore

- Gained valuable experience in MERN (MongoDB, Express.js, React.js, Node.js) stack web development.
- Developed strong problem-solving abilities while overcoming coding challenges.
- Acquired knowledge of Git for efficient code management.
- Fostered a commitment to continuous learning and staying updated with industry trends.
- Equipped with essential skills and a genuine passion for web development, laying the foundation for a promising career.

EDUCATION

Bachelor of Engineering: Electronics & Telecommunications

Aug 2016 - Jul 2020

Dayananda Sagar College of Engineering
