

Harsh Tiwari

Software Developer

With two years of Fintech experience in a startup, I am a proficient MERN Stack Developer skilled in Node.js, React.js, and Nest.js, with additional expertise in Next.js. I led complete product ownership for a live project, overseeing feature development, bug resolution, and database maintenance in high-pressure production settings.[1]

EXPERIENCE

Lensta Tech Pvt Ltd, Bangalore
Software Engineer
Nov 2021 - Oct 2023

- Oversight of Loan Origination System (LOS) with a pivotal full-stack role
- Utilized React for frontend, ensuring an intuitive user interface
- Employed Node.js and koa.js for back-end, managing logic and database communication
- Active involvement in the entire LOS lifecycle: requirements, design, testing, deployment, and maintenance
- Prompt bug resolution for enhanced system reliability
